INDEX TO VOLUME THIRTY-NINE, 1973

A

Abstracts 30,73,151,261,290,421
ACID PHOSPHATASE, ____ ____ Staining in the Histopathology Laboratory 333
ACID PHOSPHATASE STAINING, ____ ____ ____ in the Histopathology Laboratory 333
ACTIVATED PARTIAL THROMBOPLASTIN TIME, Effect of Incubation Time and Anticoagulant on the ____ ____ ____ ____ 136
ALCOHOL SCREENING, A Rapid Screening Procedure for Drug and Alcohol Analysis in Serum 338
Alexander, Jane 37
AMINO ACID CHROMATOGRAPHY, Sample Preparation for Chromatography of Amino Acids 52
AMOEBAE – FREE-LIVING, Human Meningoencephalitis Caused by the Free-Living Amoebae 417
Anderson, M. G. 315
Anderson, Shauna 179
ANEMIA – HEMOLYTIC, The Unstable Hemoglobins (Congenital Heinz Body Hemolytic Anemia) 379
ANIMAL STAPHYLOCOCCI, Correlation of Coagulase and Mannitol Test in Human and ____ ____ 94
ANTIBIOTICS, Timely Topics in Microbiology: ____ 1969–1971 17
ANTIBIOTICS, Timely Topics in Microbiology, 1970-1971: Miscellaneous Bacteria, ____ 472
ANTICOAGULANT EFFECT, Effect of Incubation Time and Anticoagulant on the Activated Partial Thromboplastin Time 136
AUDIO-TUTORIAL LEARNING EXPERIENCE, Designing an ____ ____ ____ ____ in Medical Technology 97
AUTOMATED DIFFERENTIAL SYSTEMS, Blood Sample Preparation for ____ ____ ____ 435
AUTOMATED o-TOLUIDINE GLUCOSE PROCEDURE WITHOUT ACETIC ACID, An ____ ____ ____ ____ ____ ____ ____ 140
AUTOMATED TEST FOR HEMOGLOBIN S, Dilutions Effect on Automated Dithionite and Urea-Dithionite Test for Hemoglobin S 360
AUTOMATION, An Automated o-Toluidine Glucose Procedure Without Acetic Acid 140
AUTOMATION, Automatic White Blood Cell Differential Analysis 383

B

BACTERIA – GRAM NEGATIVE, Miscellaneous Gram-Negative Bacilli: Key to Their Identification 402
BACTERIOLOGICAL TRANSPORT MEDIA, Evaluation of ____ ____ ____ 12
BACTERIUM SCREENING TEST, Evaluation of a ____ ____ ____ in a Large Hospital Environment 454
Bain, R. W. 373
Baldridge, Patricia B. 454
Bastiani, R. J. 211
BLOOD CULTURE, Semi-Mechanized Technique for Subculturing Blood 187
Book Reviews 198,365,424,487
Boose, Dorothy 60
Bowling, Mary C. 267
Brandt, M. K. 217
Branson, Dorothy 17,63,94,132,321,457,563,472
Brattin, William J. 223
Brookman, C. 373
Brown, William J. 272
Brunning, Richard D. 165
Bump, Charles M. 40,191
Bunn, H. Franklin 379
Byers, John F. 79

C

CARCINOMA, Effect of an Implanted Cytosar-Silicone Complex on Ehrich Ascites ____ 175

Cariglia, N. . . . 373
Carson, Freida L. . . . 333
CHEMOTHERAPY, The Effects of Leukemia and Lymphoma ____ on Hematopoietic Cells . . . 165
CHOLINESTERASE METHODS, A Review of Clinical Applications and Methods for Cholinesterase . . . 279
Christian, David L. . . . 12
CHROMATOGRAPHY, Sample Preparation for ____ of Amino Acids . . . 52
COAGULASE, Correlation of ____ and Mannitol Test in Human and Animal Staphylococci . . . 94
COAGULATION, Disseminated Intravascular ____ . . . 392
COAGULATION, Simplified Procedure for Monitoring Heparin Therapy . . . 1
COAGULATION, Vascular Hemostasis: A Review . . . 252
Cotter, David A. . . . 417
Cotter, Douglas A. . . . 383
Crowley, Judeth A. . . . 275
CURRICULUM REVISION, Alumni Opinions as a Source for Curriculum . . . 275
CYTOLOGY – BREAST, Breast Cytology . . . 397
CYTOSAR-SILICONE COMPLEX IMPLANTATION, Effect of an Implanted ____ ____ on Ehrich Ascites Carcinoma . . . 175

D

Davis, Kent D. . . . 136
Dietz, Catherine C. . . . 55
DISSEMINATED INTRAVASCULAR COAGULATION, ____ ____ . . . 392
DITHIONITE AND UREA-DITHIONITE TEST, Dilutions Effect on Automated ____ ____ ____ ____ ____ for Hemoglobin S . . . 360
Donnellan, Sr. Austin Marie . . . 9
DOUBLE-GRADIENT PLATE SUSCEPTIBILITY TESTING, ____ ____ ____ ____ ____ of an Enterococcus and Its L-form . . . 55
DOXYCYCLINE SUSCEPTIBILITY, Disc Susceptibilities to Four Tetracyclines . . . 132
Drnec, J. F. . . . 183
DRUG AND ALCOHOL ANALYSIS – SERUM, A Rapid Screening Procedure for ____ ____ ____ ____ in Serum . . . 338
DRUG ASSAYS, Homogeneous Immunochemical ____ ____ . . . 211
DRUG ASSAYS, Immunological Assays for Drugs in Biological Samples . . . 223
DRUG ASSAYS, A Modern Approach for Drug Identification . . . 237
DRUG ASSAYS, Thin Layer Chromatography as a Method of Screening for Narcotics Usage . . . 217
DRUG ASSAYS – IMMUNOCHEMICAL, Homogeneous Immunochemical Drug Assays . . . 211
DRUG ASSAYS – IMMUNOLOGICAL, Immunological Assays for Drugs in Biological Samples . . . 223
DRUG DETECTION, Requirements and Problems in Urinalysis for Abuse Drugs: The Role of Gas Chromatography . . . 205
DRUG DETECTION, Ultraviolet Spectrophotometric Analysis of Drugs in Biological Fluids . . . 231
DRUG IDENTIFICATION, A Modern Approach For ____ ____ . . . 237
DRUG SCREENING, A Rapid Screening Procedure for Drug and Alcohol Analysis in Serum . . . 338
DRUGS – ALCOHOL, A Rapid Screening Procedure for Drug and Alcohol Analysis in Serum . . . 338
Dziengiel, Susan Lee . . . 175

E

Edelstein, Leon M. . . . 373
Ederer, Grace Mary . . . 12
EDUCATION, Designing an Audio-Tutorial Learning Experience in Medical Technology . . . 97
EDUCATION – MEDICAL TECHNOLOGY, Medical Technology Education – A Program With Maximum Use of Student-Classroom Facilities . . . 245
EHRICH ASCITES CARCINOMA, Effect of an Implanted Cytosar-Silicone Complex on ____ ____ ____ . . . 175
Elbert, G. . . . 354
ENTERIC GRAM NEGATIVE RODS, Timely Topics in Microbiology: ____ ____ ____ ____, 1970-1971 . . . 321

ENTEROCOCCI, Double-gradient Plate Susceptibility Testing of an Enterococcus and Its L-form 55
EVALUATION BY ALUMNI, Alumni Opinions as a Source for Curriculum 275
EVALUATION OF HEMATOLOGIC ABNORMALITIES, Uniform Grading of Hematologic Abnormalities 517

F

FACTORS AFFECTING WHITE CELL DIFFERENTIAL COUNTS, ____ ____ ____ ____ ____ ____ 354
FAST ANALYZER, An Improved Method for the Determination of Total Serum Proteins on the ____ ____ 299
FLUORESCEIN CONJUGATED ANTISERA, Evaluation of ____ ____ ____ in the Clinical Laboratory 315
Fong, Julita A. 310
Freier, Esther F. 140,299

G

GAS CHROMATOGRAPHY, Requirements and Problems in Urinalysis for Abuse Drugs: The Role of ____ ____ 205
GENERAL MICROBIOLOGY, Timely Topics in ____ ____, 1970–71 63,463
Gitnick, Gary L. 90
GLUCOSE METHODOLOGY, An Automated o-Toluidine Glucose Procedure Without Acetic Acid 140
GRADING OF HEMATOLOGIC ABNORMALITIES, Uniform ____ ____ ____ ____ 517
GRAM-NEGATIVE BACILLI, Miscellaneous ____-____ ____: Key to Their Identification 402
GRAM NEGATIVE BACTERIA, Timely Topics in Microbiology 1971: ____ ____ ____ 457
Grosky, Barry M. 1
Guillan, Ramon A. 306

H

Hamstra, Roger D. 245
Hanscom, S. 373
Hanson, Naomi Quast 299
Hantman, David I. 90
HEAVY METAL POISONING, ____ ____ ____: Clinical Aspects and Laboratory Analysis 443
HEINZ BODY HEMOLYTIC ANEMIA – CONGENITAL, The Unstable Hemoglobins (Congenital ____ ____ ____ ____ 379
HEMATOLOGY – ABNORMAL, Uniform Grading of Hematological Abnormalities 517
HEMATOPOIESIS, The Effects of Leukemia and Lymphoma Chemotherapy on Hematopoietic Cells 165
HEMATOPOIESIS, Effects of Radiation on Hematopoietic Tissue 119
HEMOGLOBIN S, Dilutions Effect on Automated Dithionite and Urea-Dithionite Test for ____ ____ 360
HEMOGLOBINOPATHIES, The Unstable Hemoglobins (Congenital Heinz Body Hemolytic Anemia) 379
HEMOSTASIS – VASCULAR, Vascular Hemostasis: A Review 252
HEPA-GENT, Comparison of ____-____ and Hepatitis Associated Antigen as Determinants of Liver Disease 90
HEPA-GENT AND HEPATITIS ASSOCIATED ANTIGEN, Comparison of ____-____ ____ ____ ____ ____ as Determinants of Liver Disease 90
HEPARIN, Simplified Procedure for Monitoring ____ Therapy 1
HEPATITIS, Comparison of Hepa-Gent and ____ Associated Antigen as Determinants of Liver Disease 90
Hildebrant, J 354
HISTOLOGY, An Improved Method of Tissue Processing Using a New Water-Soluble Wax 288
Hocker, E. Virginia 306
Husseini, Salah 119
HYPERLIPOPROTEINEMIA PHENOTYPING, A New Approach to ____ ____ 183

I

IDENTIFICATION OF SERRATIA MARCESCENS, Evaluation of the Four Tube R/B System for ____ ____ ____ ____ and Serratia Liquefaciens 272

IMMUNOADSORBENT, Preparation and Use of an Insoluble ____ 60
Inami, Y. H. 315
INCUBATION TIME, Effect of ____ ____ and Anticoagulant on the Activated Partial Thromboplastin Time 136
INSOLUBLE IMMUNOADSORBENT, Preparation and Use of an ____ ____ 60
INTERLABORATORY QUALITY CONTROL, ____ ____ ____ Using Multiple Range Reference Sera and Operational Lines 310
ISONIAZID DETERMINATION, An Evaluation of the Fluorometric Determination of Serum Isoniazid with Pentanedione 451

J

Jaffe, Norman 345
Jatlow, Peter 231
Jhung, J. W. 373
Johns, Patricia A. 495
Johnson, Marian A. 136

K

Kaufman, James H. 338
Kennedy, Gail A. 275
Knapp, William A. 310
Knight, Joseph A. 179
Kocka, Frank E. 269
Kramer, Charles R. 288
Kubasik, Norman P. 443

L

Law, Norman C. 237
Leaverton, P. 354
LEUKEMIA, The Effects of ____ and Lymphoma Chemotherapy on Hematopoietic Cells 165
LEUKEMIA AND LYMPHOMA, Pediatric Oncology 345
LEUKOCYTE DIFFERENTIAL – AUTOMATED, Automatic White Blood Cell Differential Analysis 383
Levee, L. 183
Lever, Michael 451
Lewis, Jay 37
L-FORMS, Double-gradient Plate Susceptibility Testing of an Enterococcus and Its ____ 55
LIPID SCREENING, The Value of the Sulfophosphovanillin Reaction in ____ ____ 179
LITHIUM ANALYSIS, ____ ____ for the Small Laboratory 306
LIVER DISEASE, Comparison of Hepa-Gent and Hepatitis Associated Antigen as Determinants of ____ ____ 90
Lorenz, Robert B. 97
LYMPHOMA, The Effects of Leukemia and ____ Chemotherapy on Hematopoietic Cells 165

M

MacQueen, Julie 279
Magoc, Terrance 269
MANNITOL, Correlation of Coagulase and ____ Test in Human and Animal Staphylococci 94
Maples, Gloria 37
Maronde, Gene R. 310
Masukawa, Teruo 397
MEDIA, Evaluation of a New Medium for Staphylococcus Isolation 37
MEDIUM FOR STAPHYLOCOCCUS ISOLATION, Evaluation of a New ____ ____ ____ ____ 37
MELANOMA – MALIGNANT, ____ - ____: A Selective Review of the Biology, Histochemistry, and Diagnostic Cytology 373
MENINGOENCEPHALITIS – AMOEBAE, Human ____ Caused by the Free-Living ____ 417
METHOD – BACTERIOLOGY, Evaluation of Rapid Tests for Staphylococci Characterization 269
METHOD – HISTOLOGY, A Rapid Staining Procedure for Pneumocystis carinii 267

METHOD – HISTOLOGY, An Improved Method of Tissue Processing Using a New Water-Soluble Wax 288
Metzger, Jaclyn B. 55
MICROBIOLOGY, Quality Control Recording Methods in ____ 79
MISCELLANEOUS BACTERIA, Timely Topics in Microbiology, 1970-1971: ____ ____, Antibiotics 472
MONITORING HEPARIN THERAPY, Simplified Procedure for ____ ____ ____ 1
MYCOLOGY, Recommendations for the Improvement of Clinical ____ Laboratories 191

N

Nakamura, R. M. 315
Nelson, Cheerie A. 503
Nemoitin, Bernard O. 501

O

Okuno, Takashi 503
ONCOLOGY, Pediatric ____ 345
OPERATIONAL LINES, Interlaboratory Quality Control Using Multiple Range Reference Sera and ____ ____ 310
o-TOLUIDINE GLUCOSE PROCEDURE, An Automated ____ ____ ____ Without Acetic Acid 140

P

PARTIAL THROMBOPLASTIN TIME, Effect of Incubation Time and Anticoagulant on the Activated ____ ____ ____ 136
PEDIATRIC, ____ Oncology 345
PEDOGOGICAL APPROACH TO INSTRUMENTATION, ____ ____ ____ ____ 48
PENTANEDIONE, An Evaluation of the Fluorometric Determination of Serum Isoniazid with ____ 451
PHENOTYPING, A New Approach to Hyperlipoproteinemia ____ 183
Phillips, R. C. 211
Pickett, J. Phillip 483
PLASMA FIBRINOGEN ESTIMATION, ____ ____ ____ by Reptilase Clotting Time 503
Plaut, David 279
PNEUMOCYSTIS CARINII, A Rapid Staining Procedure for ____ ____ 267
Porres, Jose M. 402
PREGNANCY TEST, A New ____ Slide ____ 501
PREGNANCY TEST – SLIDE, A New Pregnancy Slide Test 501
PRESERVATIVE FOR URINE CULTURES, Evaluation of a New ____ ____ ____ ____ 86
PROCEDURES USED IN CLINICAL MYCOLOGY LABORATORIES, A Survey of ____ ____ ____ ____ ____ ____ 40
PROTEIN METHODOLOGY, An Improved Method for the Determination of Total Serum Proteins on the Fast Analyzer 299
PSEUDOMONAS SPECIES – CHARACTERIZATION, Characterization of ____ ____ for Identification in the Clinical Laboratory 495
PSEUDOMONAS SPECIES – SCHEME FOR IDENTIFICATION, Characterization of ____ ____ for Identification in the Clinical Laboratory 495

Q

QUALITY CONTROL, Interlaboratory ____ ____ Using Multiple Range Reference Sera and Operational Lines 310
QUALITY CONTROL IN MICROBIOLOGY, ____ ____ Recording Methods ____ ____ 79
QUALITY CONTROL RECORDING METHODS, ____ ____ ____ ____ in Microbiology 79

R

RADIATION, Effects of ____ on Hematopoietic Tissue 119
RADIOISOTOPIC T-3 AND T-4 KITS, Comparison of ____ ____ ____ ____ ____ 9
Ravel, Richard 9
Rawle, James M. 179
Raymond, Joseph 90

REFERENCE SERA, Interlaboratory Quality Control Using Multiple Range ____ ____ and Operational Lines 310
Reid, J. S. 315
REPTILASE CLOTTING TIME, Plasma Fibrinogen Estimation by ____ ____ ____ 503
Ritman, Susan G. 90
Rogers, Charles H. 435
Rosenberg, Bernard 501
Rubin, Martin 205
Ryan, Wayne L. 52

S

SAMPLE PREPARATION, Blood ____ ____ for Automated Differential Systems 435
SAMPLE PREPARATION, ____ ____ for Chromatography of Amino Acids 52
Samuelson, Marlene S. 360
Schneider, R. S. 211
Schorr, Kristen Ann 102
SCREENING, Thin Layer Chromatography as a Method of ____ for Narcotics Usage 217
SCREENING PROCEDURE, A Rapid ____ ____ for Drug and Alcohol Analysis in Serum 338
SCREENING TEST, Evaluation of a Bacterium ____ ____ in a Large Hospital Environment 454
Searcy, R. L. 183,269
SEMI-MECHANIZED, ____ - ____ Technique for Subculturing Blood 187
Senterfit, Laurence B. 454
SERRATIA LIQUEFACIENS-IDENTIFICATION, Evaluation of The Four Tube R/B System for Identification of Serratia Marcescens and ____ ____ 272
SERRATIA MARCESCENS – IDENTIFICATION, Evaluation of the Four Tube R/B System for Identification of ____ ____ and Serratia Liquefaciens 272
SERUM PROTEIN DETERMINATION, An Improved Method for the Determination of Total Serum Proteins on the Fast Analyzer 299
SICKLE CELL DISEASE DETECTION, Evaluation of Several Methods Used in the Detection of Sickle Cell Disease 102
Simmons, Arthur 354
Singh, Lakhbir 187
Small, Charles W. 451
Smith, Irene M. 267
Smith, Mary A. 55
Snegoski, Sr. M. Carolyn 140
STAINING – ACID PHOSPHATASE, Acid Phosphatase Staining in the Histopathology Laboratory 333
STAINING EQUIPMENT – AUTOMATED, A Survey of Automatic ____ ____ 463
STAINING PROCEDURE – RAPID, A Rapid ____ ____ for Pneumocystis carinii 267
Stallings, Richard A. 86
STAPHYLOCOCCI, Correlation of Coagulase and Mannitol Test in Human and Animal ____ 94
STAPHYLOCOCCI CHARACTERIZATION, Evaluation of Rapid Tests for ____ ____ 269
Steinberg, David 392
Stevens, David J. 252
STUDENT LABORATORY FACILITIES, Medical Technology Education – A Program With Maximum Use of ____ Classroom-____ ____ 245
SUBCULTURE TECHNIQUE, Semi-Mechanized Technique for Subculturing Blood 187
SULFOPHOSPHOVANILLIN REACTION, The Value of the ____ ____ in Lipid Screening 179
SULFOPHOSPHOVANILLIN REACTION IN LIPID SCREENING, The Value of the ____ ____ ____ ____ ____ 179
Sullivan, Anne M. 97
Sunshine, Irving 223
SUSCEPTIBILITY TESTING, Disc Susceptibilities to Four Tetracyclines 132
SUSCEPTIBILITY TESTING, Double-gradient Plate ____ ____ of an Enterococcus and Its L-form 55

T

T-3 KITS, Comparison of Radioisotopic ____ and T-4 Kits 9
T-4 KITS, Comparison of Radioisotopic T-3 and ____ ____ 9
TESTING, Double-gradient Plate Susceptibility ____ of an
Enterococcus and Its L-form 55
TETRACYCLINE SUSCEPTIBILITY, Disc Susceptibilities to
Four Tetracyclines 132
THIN LAYER CHROMATOGRAPHY, ____ ____ ____ as a
Method of Screening for Narcotics Usage 217
TIMELY TOPICS, ____ ____ in General Microbiology, 1970–1971 63,463
TIMELY TOPICS IN MICROBIOLOGY, ____ ____ ____ ____:
Antibiotics 1969–1971 17
TIMELY TOPICS IN MICROBIOLOGY, ____ ____ ____ ____:
Enteric Gram Negative Rods, 1970–1971 321
TIMELY TOPICS IN MICROBIOLOGY, ____ ____ ____ ____
1971: Gram Negative Bacteria 457
TIMELY TOPICS IN MICROBIOLOGY, ____ ____ ____
____, 1970-1971: Miscellaneous Bacteria, Antibiotics 472
Tischer, Robert G. 102,495
TISSUE PROCESSING, An Improved Method of ____ ____
Using a New Water-Soluble Wax 288
TRANSPORT MEDIA, Evaluation of Bacteriological ____ ____ 12
Trobaugh, Frank E., Jr. 119

U

UCG^{R}* – TITRATION SET, Modified Serum Preparation in the
____ - ____ ____ 33
Ullman, E. F. 211
ULTRAVIOLET SPECTROPHOTOMETRIC ANALYSIS, ____
____ ____ of Drugs in Biological Fluids 231
URINE, Requirements and Problems in Urinalysis for Abuse Drugs:
The Role of Gas Chromatography 205
URINE CULTURES, Evaluation of a New Preservative for ____
____ 86

V

Volosin, Michael T. 443

W

Walton, John R. 517
Wasilauskas, Benedict L. 86
WAX – WATER-SOLUBLE, An Improved Method of Tissue
Processing Using a New Water-Soluble Wax 288
Wellings, S. R. 310
Wescott, Susan L. 267
WHITE CELL DIFFERENTIAL COUNTS, Factors Affecting
____ ____ ____ ____ 354
Wilson, David M. 451
Wilson, Jane 37
Wilson, Sherman S. 306
Woods, Deanna 79

Y

Young, E. E. 183
